

# OUR LADY OF ANGELS SCHOOL

CALIFORNIA USA | SEPTEMBER 2019

**BRITEX PROJECT MANAGER: BRITEX USA**

## BRITEX PROJECT ROLE

Our Lady of Angels Elementary School is a fully accredited private Catholic school located in Burlingame, California on the San Francisco Peninsula.

The School was founded in 1927 and has continued to deliver quality K-8 education to each of the 317 students, with a student to teacher ratio of 24 to 1.

The school is located at 1328 Cabrillo Drive Burlingame, CA 94010.

Britex USA supplied the following products to Our Lady of Angels Elementary School:

- Britex S.S. Lockable Wallsend Trough at 1200mm long (TLW)
- Multiple Britex Eco Timed Flow Push Button Pillar Taps (TW-9101)

(L-R): Britex S.S. Lockable Wallsend Trough at 1200mm long pre-plumbed with Britex Eco Timed Flow Push Button Pillar Taps.

## ABOUT

San Francisco's Burlingame is known for its high residential quality of life and is commonly referred to as the City of Trees. The American suburban city has a population of approximately 28,000 people. During the 1960s and 1970s industrial growth within the area spurred, due to the proximity to the San Francisco International Airport. Now, Burlingame boasts the best of both worlds, with an environment that creates a balance between small town charm and world class offerings. There are twelve major hotels located along its eastern border with the bay and the airport just a few miles north, making Burlingame the perfect destination for visitors. There are quiet stretches to walk amongst the wetlands, which are filled with wildlife, as well as bustling streets lined entirely with stores featuring the latest stores and restaurants. Burlingame offers an abundance of free events, including Sunday afternoon concerts, family movie nights, Shakespeare in the Park, an annual pet parade and arts festivals.
