

# BRITEX

## PROJECT GUIDE

### WHICH BRITEX PRODUCT BEST SUITS MY PROJECT?

The following pages serve to assist specifiers by providing a quick reference guide to the products Britex recommends for **DISABLED ACCESS** projects.

These recommendations are based on the unique features and benefits of each product design as well as feedback obtained from commercial specifiers and end users over the past 74 years.

HOW TO  
USE

Product Code	UESI-LF 1.05	Page Number
Product Name	 Watersaving Urinal	State Department of Education specified item.

## DISABLED ACCESS

When selecting fixtures for Disabled Access areas, it's important to ensure product designs comply with the relevant Australian standard. Britex disabled access products conform to AS1428 where noted and can be installed in a wide variety of projects requiring disability access. Manufactured from commercial grade stainless steel, Britex provides a wide range of durable, secure alternatives to vitreous china fixtures that are more prone to damage in demanding, public amenities.
