

# LABORATORY WORK STATION

*Optional Acid Resistant  
Grade 316 Stainless Steel  
Waste Outlet (LSPW)*

## features and benefits

- Standard design for laboratory applications
- Made from 1.2mm grade 316 acid resistant S.S. no.4 satin finish
- Large integral bowl
- Fully welded seamless construction
- Rear upstand prevents splashing of dangerous substances onto adjacent work areas
- Melamine lined bench substrate
- Standard and custom lengths available
- Optional stainless steel waste outlet - LSPW

## about

The *BRITEX Stainless Steel Laboratory Work Station* can be found in many of Australia's finest laboratories and research facilities, specifically against laboratory perimeter walls. Incorporating a large integral bowl and a unique, raised tap landing for optimum infection control and prevention of cross-contamination, the Laboratory Work Station is fully welded and can be made to custom lengths as required from grade 316 acid resistant stainless steel or from standard grade 304 if not for laboratory application. Options include a grade 316 stainless steel waste outlet (LSPW) and support legs if not being installed on top of joinery.

## sample spec. text
