INSTALLATION NOTES

 Fixture strength is ultimately determined by the load capacity of the supporting structure and use of suitable fixings. 2) Shelf is supplied with heavy duty L-shaped 25x25mm SHS stainless tube wall brackets.
Brackets are then secured to underside of shelf with industrial adhesive tape or bonding material (not supplied). 4) A mechanical fixing for brackets to shelf can be supplied by special request. 5) Brackets are then secured to wall via two fixing holes in each bracket. 6) Fixings not supplied.
