features and benefits

- WELS and WaterMark certified
- Australian made
- Premium quality
- Laminar flow nozzle
- Patented inlet isolation valve with removable bucket filters
- Sleek and ergonomic designs
- Hands-free operation
- Fully enclosed componentry provides greater infection control
- Single dual temperature sets
- Heavy duty CP finish
- Robust construction

about

Medical tapware offered by BRITEX has been selected to complement specific basins, sinks and troughs within the Britex range. The medical tapware we supply is sourced from Galvin Engineering, one of Australia's most respected manufacturers of tapware for healthcare projects and is designed to provide a long life of high performance and minimise the risk of infection and germ contamination. All components are fully enclosed to avoid build-up of contaminants and patented inlet isolation valves with built-in removable bucket filters that allow easier maintenance and cleaning. Sleek and ergonomic designed handles allow hands free operation by either the elbow, forearm or wrist and are well suited to the different user groups within hospitals aged care facilities and medical centres.

sample spec. text

Britex Wall Mounted Surgical Set - Gooseneck Fixed/Ceramic - Product Code: TW-MT-51FC1

RED TEXT may denote a variable where one option only is to be selected, a nominal dimension that needs to be specified, or an optional feature that can be removed if not required. Please refer to the back of this page for additional specification details and options.
