## about

Technologically advanced, hands free tapware, BRITEX Wall Mounted Sensor Tap with 165mm Spout is designed to reduce the risk of disease caused by cross contamination when operating tapware. Operation occurs when a hand or object passes within 50-100mm on the sensor. 5 Star WELS rated spout. Water then flows from the outlet until the pre selected time cycle has expired. Alternatively the flow can be terminated at any time by passing a hand or object in front of the sensor again. Ideal for health care facilities, food preparation areas, care facilities and in public washrooms.
