- 40mm waste outlet
- 1, 2 or 3 tap holes
- Choice of tapware styles
- Front and rear fixed models
- Optional anti-ligature waste
- Suits detention projects, holding cells, public amenities and bars

about

The **BRITEX Stainless Steel Security Hand Wash Basin** combines maximum security vandal resistance with quality workmanship and style. Key to its design is a fully welded, radiused front edge with rolled safety fascia. A rounded profile above and below the basin also ensures there are no ligature points and all fixing points are concealed. Plumbing connections are secure within the stainless steel shroud that can incorporate an access panel if fixing from the front and an anti-ligature security waste is optional. Can be supplied with anti-vandal timed flow pillar tap, sensor tap or security tapware for maximum vandal resistance.
