The BRITEX Watersaving Urinal is a great, vandal resistant water saving fixture that incorporates the unique ‘Britex Waterless’ outlet requiring no costly replaceable cartridge, bio block or sealant fluid. Instead the ‘Britex Waterless’ outlet utilises a self-sealing one way diaphragm that allows urine to pass, whilst trapping odours within the plumbing. To assist with the regular maintenance regime, each Watersaving urinal is supplied with a Britex Hygiene Clean that periodically activates a cleaning cycle to ensure the connected plumbing is flushed and the unit itself is kept clean. WaterMark certified as required by plumbing regulations and government legislation.

**features and benefits**
- WELS and WaterMark certified unique waterless waste outlet
- Supplied with automated, periodic ‘AutoClean’ device
- Manufactured in custom lengths - up to 1400mm max.
- Available in modules for joining on site
- Vandal resistant design
- Removable sparge cover
- Perfect for schools, clubs and public amenities

*RED TEXT* may denote a variable where one option only is to be selected, a nominal dimension that needs to be specified, or an optional feature that can be removed if not required. Please refer to the back of this page for additional specification details and options.
