- If bottle filler tap is required

Product Info:

- Economy model
- Tap Landing
- Heavy duty push button bubbler
- 40mm waste and stainless wall bracket
- Optional bottle filler tap
- Fully welded seamless construction
- Commercial grade 304 S.S.

Suggested  
Bottle Filler  
Option:

TW-BF-HF  
Fixed Spout Bottle  
Filler Hob Mounted

## INSTALLATION NOTES

1) Fixture strength is ultimately determined by the load capacity of the supporting structure (noggins recommended for stud walls) and use of appropriate fixings (i.e. sleeve anchors for masonry walls). 2) Basin is secured to wall with a stainless offset bracket (supplied) that incorporates three fixing points (6mm dia.) and via fixing holes integrated into the back of the fountain body. 3) Trap and fixings (other than wall bracket) not supplied. 4) Water connection to 1/2" male bubbler: min = 150kPa, max static = 350kPa. 5) An in-line filter to prevent debris fouling bubbler is recommended.
